More than 400,000 Germans annually are taken ill or are involved in accidents while on holiday or on business trips. Effective medical services are not always guaranteed abroad. Language difficulties hinder necessary treatment. Lack of vital information often prevents problem-free return transport. The risks of travelling abroad are thus increased, especially for older people and those with health problems.

HEALTH + ESCORT PROVIDES FOR QUALIFIED AND EXPERIENCED DOCTORS, NURSING STAFF AND PARAMEDICS TO BE AVAILABLE FOR INDIVIDUAL MEDICAL CARE TROUGHOUT YOUR JOURNEY AT ALL TIMES.
